SOCREGE was created in 1993. It is a private company registered in Burkina Faso, specialized in environmental management.

SOCREGE is perfectly integrating the new orientations of official economic policies as well as donors' strategy for sustainable development

SOCREGE is utilizing expertise of national and international environmental specialists, very used with the local legal and administration regulations, as well as with the environment (physical, human, cultural). Such a company offers the advantage of enabling flexibility, efficiency and security

SOCREGE operates from a Management Board in charge of the design, definition, organisation and monitoring (quality control) of all the missions.

In order to provide the best service, SOCREGE has also a full list of national and international consultants whose professional qualifications cover the entire scope of environmental management and socio-economic interventions. SOCREGE is also developing a group strategy with local and international partners, in order to reinforce its capacities and efficiency

Professional field experience demonstrated by the company's staff and collaborators, as well as their initial backgrounds, are important factors to allow a real expertise in the environmental management issues in Burkina Faso and around in the Sub Region.

Such actions undertaken by the company are guided by safe financial practices and internal profitability to respect the major principles of sustainable development.
